

CS+X Application

Name: _____ UIN: _____

Current college/major: _____

Proposed CS+X major: _____

1. What is something related to Computer Science that you recently got excited about? What is something related to the LAS discipline that you recently got excited about? How do you foresee integrating both parts of the major?

2. What type of work do you want to do in your career soon after graduation? Think in terms of specific duties and activities, not necessarily a job title. How do you see each part of your major (CS and X) contributing toward your goals?
3. Briefly describe extracurricular activities you pursue at UIUC (e.g. student organizations, projects), career-related experiences (e.g. job shadowing, co-ops/internships, research), and academic resources you have made use of:
4. Any other involvements you are planning for next semester?
5. How did you choose the classes you are registered in this semester? What advice did you seek/receive?

6. Please prepare a semester-by-semester course plan, including course subject, number, and title. You will upload this course plan to the CS+X application form at the same time you upload this form.
7. Aside from CS + [X], what are your alternative plans of study?
8. Does your academic performance, so far, represent your best effort and abilities? If not, explain what factors have impacted your performance and any steps you have taken to address those factors.
9. Anything else we should know?

For students applying to the major as a second major/degree:

10. If applying for a dual degree, please tell us which majors and why you intend to pursue them. Why do you **need** to complete both majors?
